Early-Confidence Guided Global Correction
Progressive Sample Separation
Reconstruction of Candidate Label Set
:True Class Distribution
:Model Marginal Distribution
:Estimated Class Distribution
Model Predictions $f(x;\theta)$
Early stage model prior
Optimal Transport
Original model prediction
Corrected model prediction
$\mathbf{p}_i^{\mathrm{OT}}$
ECK Metric
l
u
Highly reliable normal samples
Uncertain samples
Highly reliable noisy samples
: Ground-truth label
1 : Candidate label
0 : Non-candidate label
Y_a 1 1 1 0 0
